

Wrinkles and What Causes Them

Trusting this letter will fulfill my promise to you and be all that you require. I remain,
Yours very truly,
Mrs. Thelma Orr.

"Wrinkles," the little word that causes a shudder to every woman and most men, are caused more by carelessness and neglect than by years. We all know the young person who makes creases by lifting the eyebrows and by smiling to continuously, also the person who frowns and squints, and the one who from ill health and poorly nourished skin shows the lines crossing the face in every direction. Such people may all take heart, because by the use of E. Burnham's wonderful skin food such lines may and surely will be obliterated.

It is unnecessary today for any one to carry these telltale marks. A course of treatment as arranged by E. Burnham will positively remove wrinkles, fill out the sunken cheeks, remove pimples and blackheads, and restore any face to its youthful contour and complexion. These treatments with the different articles are illustrated and explained in a little booklet which is published by E. BURNHAM, which makes it so plain that any lady can use these toilet articles with equally good success in the privacy of her own home as if she had visited Burnham's Beautifying Parlors and taken a course of treatments in this great establishment.

LABOR FEDERATION DECLARES WAR

ON THE NATIONAL ASSOCIATION
OF MANUFACTURERS.

WILL FIGHT THE BLACKLIST.

Convention of the Federation Takes
Steps Toward the Establishment
of a Universal Eight-Hour
Workday in America.

Norfolk, Va., Nov. 12.—That there will be war to the knife between the American Federation of Labor and the National Association of Manufacturers was evidenced Tuesday at the session of the Federation of Labor here. The federation has already taken the aggressive by looking to the establishment of a fund to fight the manufacturers through its executive council. The cry is that undue pressure is being brought to bear by the manufacturers of the country against organized labor to the detriment of the latter. The manufacturers sought this in a statement issued Tuesday by James Van Cleave, president of the National Association of Manufacturers, in which he held that the object of his association is to put labor unions on a basis whereby they may be held responsible for their conduct. As an instance he called attention to the pending suit in New York of the Typographical union against the pressmen, alleging the breaking of contracts by the pressmen. On the issue made by Mr. Cleave, the federation took aggressive steps toward the establishment of a universal eight-hour workday in America and began action looking to raising a sufficient fund to fight the war that its executive council reported had been begun by the manufacturers' association against the efforts of the federation.

These checks will be stamped across the face: "Payable in St. Louis City of Missouri exchange on T. T. T. banks have agreed to accept the plan."

A Bank Cashier Is Arrested.
Pittsburgh, Nov. 12.—Immediately following the closing Tuesday of the People's bank of California, Pa., by State Bank Examiner Hines, Oliver P. Piper, the cashier, and William L. Loefer, a Pittsburgh business man, who lives in Brownsville, Pa., were arrested, charged with conspiracy to defraud the bank. Both waived examination before a justice of the peace and were held for court under heavy bonds. Piper's bondsmen paid over to the bank \$50,000 toward the alleged shortage, which is unofficially placed at \$65,000. The bank, a state institution, was organized in 1899.

Is Accused of Many Forgeries.
Pittsburgh, Nov. 12.—B. O. Smith, of Fort Smith, Ark., who was arrested here Monday, charged with passing numerous worthless checks in this city, and who is believed to have worked extensively throughout the country, was accused of other forgeries Tuesday. S. C. Betz, a banker of Homer City, Ind., talked with the local authorities over the telephone and alleged Smith had passed a check for \$400 on him, while a half dozen other checks for the same amount were passed on business men of Homer City. "He had visiting cards from George Gould, John Jacob Astor and many other prominent men," said Mr. Betz.

Campbell Wants to be Senator.
Columbus, O., Nov. 12.—James Campbell and Joseph B. Foraker, both Ohio ex-governors, are again to measure swords in the political arena. Ex-Gov. Campbell announced Tuesday that he is a candidate for the United States senate to succeed Foraker, whose time expires March 4, 1909. "The legislature to be elected next year will make the choice. I am confident the next legislature will be democratic," said Campbell, "and I will be a candidate for the senate. I am willing to be forced into running." Campbell and Foraker opposed each other in Ohio in 1885 when Campbell was elected governor.

TESTIMONY IS SENSATIONAL.

AN ITALIAN POLITICIAN IS ACCUSED OF MANY CRIMES.

The Ministry of Public Instruction was, Under His Regime, a Headquarters for the Mafia.

Rome, Nov. 12.—The trial of Nunzio Nasi, former minister of public instruction, on charges of defrauding the state treasury, was continued here Tuesday. Deputy Cappelletti, who was at one time minister of foreign affairs and who is now president of the parliamentary committee which is investigating the Nasi case, made a deposition before the court which is considered the most sensational of the trial. Cappelletti declared that at the beginning of the investigation he was convinced of the innocence of Nasi, but that the avalanche of accusations and evidence had obliged him to change his opinion.

Among other things he said that the committee had been informed by a deputy that the ministry of public instruction, under Nasi, had become the headquarters of the Camorra and the Mafia. The committee had examined certain forged receipts for subsidies intended for poor school teachers and had found that many of these were signed with fantastic names such as "Donkey," "Lion" and "Thief," etc., which showed the impudence as well as the criminality of the forgers.

Several newspapers declare that Nasi has in reserve some sensational revelations which he will make at the last moment. These concern alleged proofs that he gave the Italian money to the late Premier Zanardelli to assist in the anti-American propaganda in the Italian provinces still subject to Austria.

A MYSTERIOUS ROBBERY.

Twenty Thousand Dollars in Cash Is Said to Have Been Stolen from a Paymaster.

Trinidad, Col., Nov. 12.—The sum of \$20,000, belonging to the American Smelting and Refining Co., which was to be used to pay employees, was stolen near Trinidad Monday night. Abraham Thompson, the paymaster, accompanied by Jim Williams, a guard, left here at dusk to drive to Cokedale, the biggest camp operated by the company. The money, which was in two canvas sacks, was placed under the bushes sent.

Thompson says they encountered no one en route to the camp, but when they arrived at Cokedale and the miners had formed in line to receive their pay it was discovered that the money was missing.

Thompson and Williams immediately retraced their tracks for several miles, but found no trace of the thief and returned to Cokedale, where they notified the sheriff.

The indictments are against 23 persons, 14 of whom are charged with selling intoxicants on Sunday. All the indicted persons will be arrested and compelled to give bond within 48 hours.

Judge Wallace, of the criminal court, who is prosecuting the Sunday closing crusade, intimated last night that the Sunday closing law will be enforced more rigidly in the future than during the Sunday's since the crusade began.

ALL BUT ONE WERE SAVED

THE CREW OF A LONG MISSING SHIP ARE RESCUED.

The Ship was Abandoned in the Pacific Ocean and the Men Made Their Way to a Lonely Island.

Guayaquil, Ecuador, Nov. 12.—The captain and nine of the crew of the Norwegian bark Alexandria, who had been given up for lost, were brought in here Tuesday by a vessel sent out from here weeks ago to search for them. With the exception of one man, the officers and crew of the ill-fated ship are now all accounted for.

The Alexandria left Australia November 26, 1906, with a cargo of coal for Panama. By the end of February she was off the Galapagos Islands and here her ill luck began. She was becalmed for weeks at a time and unable to work her way to any port. For three months she drifted about this part of the Pacific. Provisions ran low and the crew caused great hardship. Finally lack of food and water compelled the captain to abandon the bark at a point 25 miles off Albemarle Island, one of the Galapagos group.

The crew left in two boats. One reached Albemarle Island after seven days of rowing and the ten men on board were eventually taken off by a schooner and brought into this port on June 11. Nothing was heard of the other boat with the captain in command. The Ecuadorian cruiser Cotoche went out to search for them, but in vain. She only found the bark flung up on the rocks off Albemarle.

The captain relates that after his boat left the bark the men rowed for Albemarle, but currents swept them to one side and after many days of labor at the oars they managed to make indefatigable island, another of the Galapagos group. Here Jeffs was abandoned on the coast. He was sick and said it was impossible for him to accompany the others to the interior of the island. A shelter was made for Jeffs and he was supplied with food and water and left on the shore.

The other men made their way inland, where they managed to live for five months. They endured great hardships and when they were found by the crew of the "rescuing" vessel they were all very weak and almost naked.

As there is still hope for Jeffs, it is probable that another vessel will be sent out in an attempt to save him.

Effect of Sun Baths.

"The taking of sun baths is one of the most beautiful things in the world," said Eva T. Roberts, of Cincinnati. "Several years ago I visited Germany, and while there was taken down with nervous prostration. I called in the best specialists of Berlin. They told me I needed more exercise, more fresh air and more sunlight. The first thing they made me do was to take sun baths. I stripped and would go out in the yard every morning and lay for 40 minutes in the bright sun. It was not so hot, but felt so to me, as I was unprotected. Well, in a few days I began to feel better. In three weeks I was pronounced a well man. The sun baths certainly did the trick for me."

IT'S ALWAYS BAD

The Best of Backs are Bad

When They Ache and

Marion People Know It.

A bad back is always bad. Bad at night when bedtime comes. Just as bad in the morning. Every day Doan's Kidney Pills for it. Know they cure backache—cure every kidney ill. If you don't, some Marion people do.

Read a case of it: Mrs. L. Childers of 112 Olney avenue, Marion, O., has twice testified to the merits of Doan's Kidney Pills. In October 1899, when living at 231 south Main street, she said: "I have no hesitation in saying that Doan's Kidney Pills did me good. I had a perpetual lameness in the back, and suffered from headache and dizziness. Hearing Doan's Kidney Pills highly recommended I immediately began using them. They removed the whole trouble and, my back and kidneys have been all right ever since."

On July 25th, 1904, Mrs. Childers confirmed her previous testimony, saying: "There is no doubt that Doan's Kidney Pills wonderfully invigorated my back and kidneys five years ago. I have never had such trouble as I described in my former testimony since using them. Sometimes a slight recurrence takes place, but I find that a few doses of Doan's Kidney Pills never fails to bring the desired relief."

BUGS OVERRUN TOWN.
Lock Haven Has Snakes, Toads and Worms to Burn.

Lock Haven, Pa.—The plagues seem to have struck the city. Some days ago a blacksnake was discovered in the cellar of the Coffer & Nitschke tobacco house, on Bellefleur avenue, but it continually eluded its would-be slayers.

Later a blacksnake, supposedly the same one, entered the rear door of the Louis Claster grocery, causing a hasty retreat on the part of the clerk, Miss Miriam Sykes, who, as might be imagined was greatly frightened and fled to the street. His snarkship was left in full possession for a few minutes and was then shot.

A large blacksnake got away in the St. Charles hotel, and was found in the rolled curtain above the transom over the door, from which it was dislodged and killed.

After the recent rain, thousands of tiny hoptoads appeared on the streets and sidewalks of the city. They were especially numerous on Water street, about the mayor's office and attorney's row.

But a pest far more destructive is the cutworm, which devours vegetation. It is something over an inch in length and as thick as a lead pencil. The worm remains under the ground during the daytime, working on the roots of the plants, and at night comes forth and devours the leaves of the red beets, beans, cabbage, tomatos, potatoes, and even eats holes into small green tomatoes on the stalks. It is also doing bad work in the stalks of the tobacco fields.

CANNED PEARS WITH HISTORY.

Put Up 32 Years Ago, and Kept Intact by Successive Owners.

Washington.—In the window of a luncheon room on Pennsylvania avenue is a giant glass jar of branded pears that were put up by Mrs. Ella C. Haller, in Paterson, N. J., on the 25th of February, 1875. They have changed hands many times, but each time they remained untouched, their owners seeming to lack the heart to break the seal of the jar.

John Keenan, well-known to the old inhabitants of Washington, brought the jar to this city about ten years after it was put up, and for several years it stood on exhibition in the old Riggs House bar. There it attracted the attention of many prominent men and statesmen. Large prices were offered for it, but all were refused.

Finally it was raffled and the proceeds given to charity. As much as \$1,000 was netted. Subsequently the new owner raffled it and gained \$250 thereby. The man who last won it presented it to his sweetheart, who, upon marrying another, gave it to her relatives, in whose possession it now remains.

"The jar stands about three feet high, and the fruit is in perfect state of preservation in peach brandy. It is possible that the jar will be again disposed of at the Elks' fair this fall."

LEGAL GIANTS WILL BATTLE

SUIT BROUGHT BY INTER-STATE COMMISSION

AGAINST E. H. HARRIMAN.

The Commission Seeks an Order from a Federal Judge to Compel Harriman to Answer Questions Relating to Railroad Deals.

New York, Nov. 12.—Arguments will be heard to-day on the petition of the inter-state commerce commission for an order requiring Edward H. Harriman to answer certain questions propounded by the commission in its investigation of the Union Pacific railroad and its allied lines the early part of this year. Counsel for both sides were in active preparation Tuesday for what promises to be a legal battle the result of which may have an important bearing on not only the direct issue involved, but on the province and limitation of the commission's investigations in the future.

The arguments will be made by distinguished counsel before Judge Hough, in the United States circuit court. The government will be represented by Henry L. Stimson, United States district attorney, Frank B. Kellogg, of St. Paul, and C. A. Severance, while ex-Senator John C. Spooner, of Wisconsin; ex-Judge R. S. Lovett, of the Union Pacific, and John G. Milburn, of this city, will appear for Mr. Harriman.

Mr. Harriman at the investigation declined to answer certain questions regarding purchases of stock and their sale to the Union Pacific and in the answer to the commission's petition, which has just been filed, counsel for Harriman contend that Harriman's acts in the matter did not relate to interstate commerce and therefore the commission had no right to put the questions and to demand answers.

It was learned last night that in the brief which will be filed by federal counsel in court to-day, it will be claimed that the inter-state commerce commission in making this investigation was virtually a congressional committee of inquiry, and was exercising the inquisitorial powers of such a committee.

BUCKEYE NEWS BREVITIES.

License Revoked Because of Fraud.

Columbus, O., Nov. 12.—Chief Examiner Kennedy, of the state board of engineers, has revoked the license of Elmer G. McCracken, of Berea, for alleged fraud in securing it. Berea is in the Cleveland district and on May 1, 1907, McCracken applied to the deputy examiner at Cleveland for examination and failed. On August 19 he applied to the deputy at Toledo for examination, gave his residence as Clyde, which is in the Toledo district, took the examination and passed. His residence was never changed from Berea. He could have taken the examination in Cleveland again at the time he took it in Toledo, and it is believed that the reason he did not do so was that he feared the examiner would be hard on him.
